- Postal code: 20080
- Country: Italy
- Home phone: +39-0290753604
- Mobile: +39-3472282265
- Fax: +39-0290750414
- E-mail: luca@pinotti.eu

### **EDUCATION**

---

1974 - 1982  
University of Milan - School of Medicine  
Milan, Italy

- Degree in Medicine and Surgery (MD or MB BS)

2011  
University of Milan - School of Law  
Milan, Italy

- Computer forensic and digital investigations

### **PROFESSIONAL EXPERIENCE**

---

**2006 – today**  
Freelance consultant  
Milan, Italy

- Consultant at the **Town Council of Milan**, department of Health, for ICT and new technologies.
- Consultant at the feasibility of the connection of rural areas to the phone network and to the internet; Managua and Palos Ralos, Nicaragua. The project started after The World Bank approval of \$7 Million for Telecommunications in rural areas of Nicaragua.
- **Consultant** at the **ASL of Como** (Province of Como office of the Public Healthcare System) for reliability and security of the SISS (Healthcare Information System) and network. Lecturer for the same company with lectures about “Changing the company by changing the technology”.

Currently designing and planning the implementation of the unified communication system with Cisco Italia.

### **1999 - 2005**

BMW Group Italia  
Milan, Italy

- Consultant at BMW Italia for Office Automation and Networking. Involved in many projects included Extranet implementation and LAN/WAN upgrade and integration with several Company-wide applications. I have to manage suppliers (IBM, Cisco, AT&T, BT, Albacom etc.) and a network of over 250 car-dealers, 80 motorbike-dealers and over 500 local users, included a warehouse, the connection to the Corporate Network (Munich) and to implement new security rules for external partner and suppliers. As a consequence of the new networking frame I had to revise the framework of the BMW LAN in Milan: routing, security, re-cabling, naming convention and protocols for the migration to Windows 2000/2003. In the first half of 2005 I've been involved in the migration to Internet connection of the dealers (S-Gate project) and new MPLS and VPN connection for the external partners and suppliers including ISP selection and security issues. I have given support to the VoIP project of BMW Italy (Milan, Verona and Rome VoIP connection and migration).

### **1997 - 1999**

EniData (EDS Group) – EniChem  
Milan, Italy

- Installation and management of a double NW 4.11/NT 3.51 Compaq ProLiant 5000/1500 server with Lotus Notes and cc:Mail), over 300 clients, 370 users; migration from Netware to Windows NT 4 network and from Token Ring to Ethernet architecture.

### **1993 - 1997**

Freelance consultant  
Milan, Italy

- Networking, Inter-networking: Gates Italia (Gates, Belgium), GeGeLec (AEG, Germany), UCAR Italia (UCAR, USA), Town Council of Milan ("tele-aid" project).
- Training: ELEA (Olivetti), Schools of the Community of Milan
- Editor: "L'indipendente" (newspaper), articles on political, strategic and business aspects of telecommunications.

### **1985 - 1993**

Sperry Itallia/Unisys Italia  
Milan, Italy

- **Professional Senior System Analyst** for Artificial Intelligence and **Knowledge Engineer** within the Professional Services: FF.SS. (National Railroads, intelligent traffic control), Aeritalia (Consultant System in avionics engineering), Fincantieri, CERVED (automatic management of an EDP centre) and TELECOM Italia (National Telephone Company, ICAI Hypermedia System).
- **Professional Consultant System Analyst** at Unisys for 4GL and DTP. In charge of translation of user's manuals of the software packages.
